EzDirect Tracker GT-95

Guiding:

GT-95 is a powerful and user friendly location tracking device. Combining with GSM/GPRS and high performance GPS, the tracker can be used to track and report device's position and status to mobile phone through SMS/MMS/GPRS/Voice. It also has three quick dial keys for voice communication, and one SOS button for emergency alarm. GT-95 is your best choice for remote positioning and security companion.
